

STALKING & LGBTQ+ INDIVIDUALS

LGBTQ+ individuals are more likely than heterosexual and cisgender individuals to experience stalking victimization.

STALKING VICTIMIZATION BY SEXUAL ORIENTATION:¹

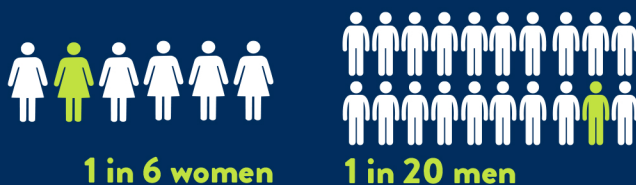

BISEXUAL

LESBIAN/GAY

HETEROSEXUAL

LGBTQ+ individuals face stigma, prejudice, & discrimination when accessing services.

Listening, being open, and treating victims with respect is essential.²

59% of male victims & 86% of female victims are stalked by men regardless of sexual orientation.⁴

*from a sample of undergraduate students

experience stalking³

transgender & nonbinary/genderqueer undergraduate students

&

of all undergraduate students

The majority of LGBTQ+ victims are stalked by someone they know - most likely an acquaintance, neighbor, coworker, or roommate.⁴
